# The Thirty-Second Annual Report.

---

*To the Trustees and Subscribers of the  
Ellen Badger Hospital.*

LADIES AND GENTLEMEN,

Your Committee have pleasure in presenting their Annual Report and the Accounts for the year ending 31st December, 1928.

The number of patients treated during the year was 198 (exclusive of births in Hospital)—an increase of 34 on the previous year ; of these 99 were surgical, 48 medical, and 51 maternity, cases ; 169 recovered, 9 were relieved, 8 died, and 12 remained in Hospital at the end of the year.

The average length of residence was 20·27 days ; average cost per patient, including administration, was £7 2s. 5d. ; and the average cost per patient, per day, was 7s. 0½d.

In the Maternity Ward there have been 47 births during the year (an increase of 4 over last year), which makes a total of 146 births since this Ward was opened.

We report with much regret the death of Dr. GEORGE FINDLAY, who has been one of the Honorary Medical Officers since the opening of the Hospital in 1896. Dr. Findlay took a keen and practical interest in all matters appertaining to the work of the Hospital, and his valuable services are greatly missed.

The income of the Hospital for the year has been an average one, but we regret that our appeal for annual subscriptions, particularly from individuals, has not met with the response we hoped for. These subscriptions have, however, increased considerably, and the congregational collections and donations have done likewise.

It will be observed that whereas last year there was a substantial deficit on the year's working there is this year a small surplus, and this is very gratifying. It is accounted for by increased income and reduced expenditure, the latter being due to rigid economy, all expenses having been kept as low as possible consistent with the efficient working of the Hospital.

We wish to gratefully acknowledge the efforts made by the inhabitants of the town and neighbourhood to raise funds during the past year, and trust that these may even increase during the present and future years.

It must be remembered that as the income of the hospital increases, the benefits and comforts to patients can be correspondingly enlarged.

It is our desire to improve the existing X-ray Department which would cost about £500. Donations towards the cost of this will be welcome.

It may be of interest for you to know that at the present time the Nursing Staff consists of the Matron, a Sister, two Nurses, and a Probationer; and, on the domestic side, a Cook, two Maids, a Laundress, and a Gardener.

Your best thanks are due to the Medical Men, Matron, and Nurses for the care and skill which they have given to the patients, and to all those who, by means of subscriptions, donations, and other gifts, have contributed to the funds during the past year.

Signed on behalf of the Committee  
of Management,

F. B. HANCOCK,  
Vice-Chairman.

SHIPSTON-ON-STOUR,
